Continuation of 3. NOTE: The recitation in claim 9 of a means for lowering the solder surface in order to effect withdrawal of the component leads from the solder presents a new issue under 37 CFR 1.75 (c) with respect to claim 13 which depends on claim 9 since claim 13 also recites a means for lowering the solder surface in order to effect withdrawal of the leads from the solder. The newly recited limitation in claims 25 and 32 of a means for lowering the solder surface in order to effect withdrawal of the component leads from the solder presents new issues under 35 USC 112, second paragraph since due to claim language redundancy (see lines 7-10 of claim 25 and lines 9-10 of claim 32). Claim 20 presents a new issue under 35 USC 112, second paragraph since claim 20 is improper since the claim ends with a semicolon.
